Summary

A simple reference enclosure for XIAO 1.14'' IPS Display

Hobby & Makers > Electronics

Tags: esp32 seeed seeedstudio ips xiao

I designed a simple snap-fit case for the XIAO 1.14-inch IPS Display. It works with both the ESP32 and nRF versions, as both PCBs are the same. The case I designed also has space for a battery. I used a 200mAh 501530P LiPo battery to power the module, which fits inside the enclosure.

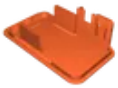

You can buy these modules from the links below:

- **XIAO 1.14-inch IPS Display (nRF52840)**
- **XIAO 1.14'' IPS Display(ESP32-S3)**
